AMIN ARABI

Frontend Developer

amin.arabi@gmail.com | Turin, Italy
amin-arabi | +39 349-1438210

SKILLS

React | NextJS | Typescript | Redux | React-Router-Dom | Jest | SASS | CSS in JS

Git | REST | GraphQL | Docker | Gitlab-cli | Chrome, Firefox Devtools

INTERESTS

Data Visualization | Authentication | Authorization | Performance Optimization

SSR | Build Optimization | CICD | PWAs | SEO

LEARNING

Golang | Data Structures | Algorithms | OS | BE Development | VueJS

INDEPENDENT

Relational DBs | SQlite

Non Relational DBs | MongoDB | OS | NestJS | API Development

ABOUT ME

Develop Web Applications, with a focus on React. Love setting up my own pipeline, and learn coding better and other technologies. Recently interested in data structures and algorithm efficiency.

EXPERIENCE

Frontend Developer | Capgemini

11 2022 – Present | Turin, Italy

- SaaS: Developed a greenfield web app for Sicuritalia members, enabling efficient sharing and access to work-related data with varying access levels.
  - Researched and implemented state management, data retrieval, caching system, and additional functionalities.
  - Utilized Redux Toolkit and Redux Toolkit Query for scalable state management and API calls.
  - Implemented authentication, authorization, and dynamic checklist using Bootstrap and custom components.
  - Successfully implemented the new services with no reported logical issues.

Frontend Developer | People Lab S.R.L.

09 2022 – 11 2022 | Milan (remote), Italy

- E-commerce: Led technology selection and setup for a greenfield project, prioritizing SEO and performance by choosing NextJS.
  - Established a project foundation for future enhancements and error prevention, focusing on mobile-first design.
  - Implemented a secure CICD pipeline using Gitlab-cli for smooth and reliable deployments.
  - Ensured code quality through comprehensive testing and efficient deployment processes.
- ladante.it: Modified an Angular 8 website, identifying areas for improvement and implementing requested changes. - Refactored code to improve organization, understandability, and maintainability. - Enhanced the codebase for the website by following best practices and emphasizing separation of logic and interface components.
- Mentoring: Provided hands-on training and guidance to a trainee in ReactJS for a small project involving watermarking Lamborghini pictures. - Mentored the trainee in React usage, data management, and conditional rendering techniques. - Trainee successfully executed the project, demonstrating proficiency in React and correct architectural principles.

LANGUAGES

English: Fluent

Italian: Fluent

Farsi: Native

Frontend Developer | Abstract S.R.L.

06 2022 – 09 2022 | Milan (remote), Italy

- SaaS for Healthcare:Extended a web app to collect patient information by implementing a dynamic wizard feature using a JSON schema.
  - Created dynamically generated forms within the wizard using the JSON-Schema library.
  - Successfully implemented the forms, meeting client requirements and increasing automated test coverage by 20%.

Frontend Developer | The Innovation Factory S.R.L.

06 2021 – 06 2022 | Rome (remote), Italy

- E-commerce: Developed a grocery e-commerce website using Adobe XD mockup and the ReactJS Venia template with Magento backend.
  - Customized Venia to match the mockup's features and appearance without modifying the original code.
  - Optimized component architecture for enhanced performance and code control.
  - Deployed the website with acceptable performance and extendable code, achieving desired functionality.
- SaaS: Developed a greenfield project called "TOBi Sentinel" to test Vodafone's vocal assistant (TOBi) with large-scale planned tests.
  - Implemented frontend development using the Ant Design component library and ensured error boundaries for application reliability.
  - Successfully implemented authentication using Azure as the identity provider.
- Scouting for Data Visualization: Conducted research on 7 Data Visualization libraries to find a free solution for drill-down diagrams.
  - Implemented drill-down functionality manually in Nivo charts and Apexcharts.

EDUCATION

Petroleum Engineering | Politecnico di Torino

09 2012 – 12 2017

Turin, Italy

Mechanical Engineering | K.N.Toosi University of Technology

10 2006 – 06 2012 | Tehran, Iran
